

FUNCTIONAL POSITION DESCRIPTION FOR THE ADVANCED LIFE SUPPORT PROVIDER

INTRODUCTION

The following is a position description for the Advanced Life Support Provider within Virginia. This document identifies the minimum qualifications, expectations, competencies and tasks expected of the Advanced Life Support Provider.

QUALIFICATIONS FOR STATE CERTIFICATION

To qualify for state certification, the applicant must at a minimum:

1. meet minimum state entry requirements.
2. meet course requirements such as attendance and grades.
3. successfully complete all certification/licensure examination(s).

COMPETENCIES

The Advanced Life Support Provider must demonstrate competency in handling emergencies utilizing basic and advanced life support equipment and skills in accordance with the objectives in the Virginia Standard Curriculum for the EMT-Enhanced or the U.S. Department of Transportation National Standard Curriculum for the EMT-Intermediate or EMT-Paramedic to include having the ability to:

- verbally communicate in person, via telephone and telecommunications using the English language;
- hear spoken information from co-workers, patients, physicians and dispatchers and in sounds common to the emergency scene;
- ability to lift, carry, and balance up to 125 pounds (250 with assistance);
- ability to interpret and respond to written, oral, and diagnostic form instructions;
- ability to use good judgment and remain calm in high-stress situations and take on the role of a leader.
- read road maps; drive vehicle, accurately discern street signs and address numbers;
- read medication/prescription labels and directions for usage in quick, accurate, and expedient manner;

- communicate verbally with patients and significant others in diverse cultural and age groups to interview patient, family members, and bystanders;
- discern deviations/changes in eye/skin coloration due to patient's condition and to the treatment given;
- document, in writing, all relevant information in prescribed format in light of legal ramifications of such;
- perform with good manual dexterity all tasks related to advanced emergency patient care and documentation;
- bend, stoop, balance, and crawl on uneven terrain;
- withstand varied environmental conditions such as extreme heat, cold, and moisture;
- perform quickly, precise, practical mathematical calculations pertinent to ratio and proportion of medication and supplies used in emergency patient care.

DESCRIPTION OF TASKS

The Advanced Life Support Provider must:

- be independent, confident, able to work independently without defined structure, have good stable reasoning ability with ability to draw valid conclusions expediently relevant to patient's condition, often, using limited information;
- have knowledge and skills relevant to position and be able to implement them in stressful situations;
- be cognizant of all legal, ethical, and moral obligations inherent within scope of practice;
- be able to perform mathematical calculations/ratios and apply them in expedient, practical manner;
- have successfully completed an approved curriculum with achievement of passing scores on written and practical certification examinations as defined by programmatic guidelines;
- and at any given time, performs any or all tasks performed by a lower level EMT;
- may supervise activities of students or interns, and/or may engage in writing of journal articles or teach. Meets qualifications within the functional job analysis;
- meet minimum vision requirements to operate a motor vehicle within the state.

**ATLANTIC EMS COUNCIL
ACCOMMODATION POLICY**

VIRGINIA DEPARTMENT OF HEALTH

**OFFICE OF
EMERGENCY MEDICAL SERVICES**

109 Governor Street UB-55
Richmond, VA 23219

(804)864-7600
(800) 523-6019

This document is intended to be distributed by course coordinators to students who after a formal review of the administrative aspects of a Virginia Basic Life Support program believe they need to pursue an accommodation.

ATLANTIC EMS COUNCIL ACCOMMODATION POLICY

I. INTRODUCTION

The Americans with Disabilities Act of 1990 has implications for coordinators and students in the areas of prospective student information, testing of knowledge and skills competency. Among the many provisions of the ADA are several that pertain specifically to agencies, institutions and organizations that provide courses or examinations leading to certification.

The intent emphasizes that individuals with disabilities are not to be excluded from jobs that they can perform merely because a disability prevents them from taking a test or negatively influences the results of a test, which is a prerequisite to the job. Passing written and skills examinations during an EMS course and passing certification examinations are prerequisites for functioning as a certified EMS provider.

This law permits testing that requires the use of sensory, manual or speaking skills where the tests are intended to measure essential functions of the profession. For example, an applicant with a reading disability could be required to take a written examination if the ability to read is an essential function of the profession, and the examination is designed, at least in part, to measure the ability to read. An essential function of an EMS provider is the ability to read and understand small English print under highly stressful conditions for the provider and patient. A second example is one dealing with skills examinations that must be performed within established time frames.

Performing a skill within a certain time frame can be required if speed of performance is an integral part of the skill being measured. Both the ability to read and the ability to perform basic skills within time frames are essential functions of an EMS Provider.

II. SCOPE

The information provided herein applies to all prehospital EMS personnel.

III. SPECIFIC DIRECTIONS

Coordinators must review the standard functional position description and the information concerning the ADA, with every prospective student. Prospective students need to understand the competencies and tasks that are required within the profession BEFORE entering a training program.

Students cannot be discriminated against on the basis of a disability in the offering of programs or services.

There will be NO allowed accommodations during the course of instruction or certification examinations unless written approval is received from the certification/licensure agency, in advance. Students who have received an accommodation during the course need to fully understand that there is a separate process for requesting an accommodation for the state written and practical certification examination. The certification agency will establish eligibility for an accommodation on a case-by-case basis. Documentation confirming and describing the disability must be submitted according to policy, for consideration.

Here are five examples of accommodations that would NOT be allowed during the instructional program:

1. Additional time for skills with specific time frames will NOT be allowed. Obviously, patients would suffer due to life threatening conditions in emergency situations.
2. No accommodation will be made in a training program that is not reasonably available in a prehospital environment. Students may use performance aids which could be readily available and easily accessible to them in the prehospital setting. It is the responsibility of the student to provide any personal aids they deem necessary and the certifying agency deems appropriate.
3. Unlimited time to complete a written examination is NOT allowed. Such a request is not considered reasonable because a candidate should be able to complete a test within a finite amount of time.
4. Written examinations are NOT to be administered with an oral reader. The ability to read and understand small English print (12 point) is an essential function of the profession, and written examinations are designed, at least in part, to measure that ability.
5. A written examination with a reading level which is lower than the reading level required by the profession to function safely and efficiently should not be administered.

IV. DOCUMENTED LEARNING DISABILITY

Test takers who have presented a documented learning disability relating to reading decoding or reading comprehension may be granted a standard extension. A standard extension allowed for completing a written examination is time-and-a-half. Thus if the examination is normally administered in two hours, an extra hour could be allowed to complete the examination. This accommodation could be

allowed because the individual would be able to perform the essential functions of the position description. The critical nature of reading in emergency situations requires reading finite amounts of material in measured amounts of time, as it is required for taking an examination. Also the reading level of an exam is not impacted by the time requirement of the exam.

The certification/licensure agency will review only written requests for accommodations on the state written certification examination on a case-by-case basis. Requests must be submitted on the "Accommodation Request" form. The state certification/licensure agency will provide written notification upon review of the request for accommodation.

V. DISABILITY ACCOMMODATION POLICY

A. Requesting Accommodations

"Accommodation Request" forms are available from the Office of Emergency Medical Services. The candidate who is requesting an accommodation must complete the request form at the start of the instructional program or as soon as the need for an accommodation is recognized.

Documentation of a specific disability which would impact your performance on the written examination must include a signed statement on letterhead stationery from a professional who is familiar with your disability. This statement must confirm and describe the disability for which the accommodation is required. The professional must have expertise in the specific disability for which the accommodation is being requested.

Applicants with disabilities are entitled to, and have the responsibility to meet the same deadlines for application and submission of documentation established for preregistration as non-disabled individuals. The process involved in establishing eligibility will not impose discriminatory timeliness for application on the individual with a disability.

B. Reasonable Accommodations

The certification/licensure agency will offer reasonable accommodations for the written certification exam for those persons with written documented disabilities.

Based upon an analysis of the Functional Position Description and the written examination, it has been determined that persons with learning disabilities manifested in the academic areas of reading decoding, or reading comprehension may be eligible for additional time as an accommodation.

Documentation of a specific disability which would negatively impact one's performance on the written examination must include a complete "Accommodation Request" form with signature of the individual. This statement must confirm and describe the disability for which an accommodation is being requested.

Requests for accommodation on the written examination will be reviewed on a case-by-case basis. If the appropriateness of the requested accommodation is in doubt, the certifying agency will discuss options with the candidate and will consult with professionals knowledgeable about disability and functions of the profession. The recency of disability testing is not an issue in determining the need for accommodation. A permanent learning disability is a permanent disability.

VI. DEFINITION

The word "written" was purposefully included to ensure that certified individuals could read. The written portion of the EMS certification examination is designed, in part to measure an applicant's ability to read and understand English. Being able to read is a skill that is justified as integral to the performance of the job.

VII. RECORD KEEPING

Diagnostic information related to an individual's disability is highly confidential and will not be disclosed to third parties. The accommodation file will be maintained separately from the application and test result files.
